

MEDICAL STANDARDS FOR ADMISSION TO SAINIK SCHOOLS

(Medical standards are strictly as per the requirements for entry into the National Defence Academy, Khadakwasla / Indian Armed Forces)

The medical examination of candidates for admission to the Sainik School will be carried out by the Medical Board constituted by Military Hospital Jalandhar Cantt.

It is not possible to lay down precise standards for height, weight and chest measurement for the candidates but the Medical Officers will be guided in their assessment by the physical standards laid down for candidates for admission to the National Defence Academy.

Height and proportionate weight are constitutional qualities which are largely governed by heredity. Therefore, candidates whose parents are short-statured and below normal weight may not eventually attain the minimum standards of height and weight required for the Armed Forces. This point should, therefore, be borne in mind by the parents/guardians of such candidates before they seek admission of their children/wards.

Candidates for admission to Sainik Schools should conform to the following medical standards :

The minimum acceptable standards will be as under :

VISUAL STANDARDS

(a)	Distant Vision	Better eye	Worse eye
		V-6/6	V-6/9
(b)	Near Vision N-5 Each eye	Correctable to 6/6	
(c)	Colour Vision CPI (MLT)		

Candidates who do not possess the minimum colour perception standard CP-3 (Defective safe) defined below will be declared unfit :

CP-3 (Defective safe) : Candidates should be able to recognise white signal, red signal, green colour correctly as shown by Martin's lantern at a distance of 15 metres or read the requisite plates or Ishiara Book/Tokya Medical College Book.

Note :

1. Fundus and Media to be healthy and within normal limits.
2. No undue degenerative signs of vitreous or chorioretina to be present suggesting progressive myopia.
3. Must possess good binocular vision (fusion faculty and full field of vision in both eyes)
4. There should be no organic disease likely to cause exacerbations or deterioration.
5. Colour vision : Safe or defective safe.

DENTAL CONDITIONS :

It should be ensured that sufficient number of sound teeth are present for efficient mastication.

- (a) A candidate must have a minimum of 14 dental points to be acceptable. In order to assess the dental condition of any individual, points are allotted as under :
 - (i) Central Incisor, lateral incisor, canine, 1st and 2nd premolar and underdeveloped 3rd molar one point each.
 - (ii) 1st and 2nd molar and fully developed third molar-2 points each. When all 32 teeth are present, there will be a total count of 22 points.
- (b) The following teeth in good functional apposition must be present in jaw :
 - (i) Any four of the six anteriors.
 - (ii) Any six of the ten posteriors
- (c) Candidates suffering from severe pyorrhoea will be rejected. If the state of Pyorrhoea in the opinion of the Dental Office, can be cured without extraction of teeth, the candidate may be accepted.

HEARING STANDARDS

Hearing will be tested by speech test. Wherever required, audiometric records will also be taken.

(a) **'Speech Test'.**

The candidates should be able to hear a forced whisper with each ear separately at a distance of 610 cms.

(b) **Audiometric Record :**

The candidates should have no loss of hearing in either ear at frequencies 128 to 4.095 cycles per second (Audiometry reading between (-) 10 and (+) 10.

General

It will be ensured that :

(a) There is no evidence of weak constitution, imperfect development, serious malformation or obesity.

(b) There is no maldevelopment or impairment of function of the bones or joint and that no cervical rib detectable on physical examination.

Note : A candidate with a rudimentary cervical rib detected incidentally only on skiagram of the chest when this is done, and in whom there are no signs or symptoms referable to the cervical rib may be considered fit and a note to this effect will be recorded by the Medical Officer in the medical board proceedings.

(c) There is no impediment of speech.

(d) There is no malformation of the head, deformity from fracture or depression of the bones of the skull.

(e) There is no impaired hearing, discharge from tympanic membrane, signs of acute or chronic disease of either ear, unhealed perforation of the suppurative otitis media or evidence of radical or modified radical or mastoid operation.

Note : A soundly healed perforation without any impairment of the mobility of the drum and without impairment of hearing should not be a bar to acceptance of a candidate.

(f) There is no disease of the bones or cartilages of the nose or nasal polyp or disease of nasopharynx and accessory sinuses.

Note : A small asymptomatic traumatic perforation of the nasal septum will not be cause for outright rejection and such cases would be referred to the advisor in otology.

(g) There are no enlarged glands due to tuberculosis or other disease in the neck and other parts of the body and that the thyroid gland is normal.

Note : Scars of operation, for the removal of tuberculosis glands are not a cause for rejection provided there has been no active disease with preceding five years and the chest is clinically and radiologically clear.

(h) There is no disease of the throat, palate, tonsils or gums or any disease or injury affecting the normal function of either mandibular joints.

Note : Simple hypertrophy of the tonsils. If there is no history of attacks of tonsillitis is not a cause for rejection

(i) There is no sign of functional or organic disease of the heart and blood vessels.

(j) There is no evidence of pulmonary tuberculosis or previous history of this disease or any other chronic disease of the lungs.

(k) There is no evidence of any disease of the digestive system including any abnormality of the liver and spleen.

(l) Inguinal hernia (unoperated) will be cause of rejection.

Note : In the case of candidates who have been operated for hernia may be declared fit provided :

(i) One year has elapsed since the operation, Documentary proof to be furnished by the candidate to this effect.

(ii) General tone of the abdominal musculature is good.

(iii) There has been no recurrence of the hernia or complication connected with the operation.

(m) There is no hydrocele or definite varicocele or any other disease or defect of the genital organs.

Note : (i) A candidate who has been operated for hydrocele will be accepted if there are no abnormalities of the cord and testicles and there is no evidence of filariasis.

(ii) Undescended intra abdominal testicle on one side should not be a bar to acceptance of candidates

provided the other testicle is normal and there is no untoward physical or psychological effect due to the undescended testicle. Undescended testis retained in the inguinal canal or at the external inguinal ring is, however, a bar to acceptance unless corrected by operation.

- (n) There is no fistula and/or fissure of the anus, or evidence of haemorrhoids.
- (o) There is no disease of the kidneys. All cases of glycosuria and albuminuria will be rejected.
- (p) There is no disease of the skin, unless temporary or trivial scars which by their extent or position cause, or are likely to cause, disability or marked disfigurement are a cause for rejection.
- (q) There is no active latest or congenital general disease
- (r) There is no history or evidence of mental disease. Candidates suffering from epilepsy, incontinence or urine or enuresis will not be accepted.
- (s) There is no squint or morbid condition of the eye, or the lids which is liable to risk or aggravation or recurrence.
- (t) There is no active trachoma or its complications.

Note : Remedial operations are to be performed prior to entry. No guarantee is given for ultimate acceptance and it should be clearly understood by the candidates that the decision whether an operation is desirable or necessary is one to be made by their private medical advisor. The School will accept no liability regarding the result of operation and expenses incurred.

FLAT FOOT

(a) METHOD OF EXAMINATION

- (i) The candidates will be examined bare footed, standing erect and the presence or absence of normal arch of the feet should be noted.
- (ii) Candidate should be asked to stand on toes with the feet and heels kept separated and the restoration or otherwise of each noted.
- (iii) Candidate should be made to skip on forefoot and the suppleness springiness of the feet observed. Tarsal joints will be examined for suppleness of movement.

(b) ACCEPTABLE FOR ADMISSION

- (i) Milder degree of flat foot where the arches of the feet are restored on standing on toes, with supple or painless feet should not be a bar to acceptance.
- (ii) Severe degree of flatfoot where the arch does not reappear on standing on toes and where the feet are rigid **SHOULD BE A PERMANENT CAUSE FOR REJECTION.**
- (iii) Rigidity of the foot whatever be the shape of the feet **IS A CAUSE FOR REJECTION.**

KNOCK KNEE

a) METHOD OF EXAMINATION

- (i) The candidate will be examined standing erect.
- (ii) The knee joints will be kept fully extended with the feet parallel and the patellae facing directly forwards.
- (iii) The distance between medial malleoli will be measured with the medial condyles touching each other.
- (iv) Any associated deformity of the feet or hip or genu recurvatum will be looked for the same time.

(b) ACCEPTABLE FOR ADMISSION

- (i) Milder degree of knock knee when the distance between malleoli is not more than two inches will not be a bar to acceptance, provided there is no other associated disability. This will be considered as a minor disability and recorded as such. The candidate should be able to stand to attention with shoes or boots without flexing or overlapping of either knees.
- (ii) Marked degree of knock knee with the distance between the malleoli **MORE THAN TWO INCHES WILL BE UNFIT FOR ACCEPTANCE.**
- (iii) If the candidate is able to stand to attention without flexion of knee irrespective of any intermalleolar measurements, such candidates can safely be declared as fit.
